SUMMARY

Frontend Engineer with **2.5+ years** of experience building scalable web applications for international clients in e-commerce, SaaS, and marketplace domains. Proficient in **React.js, Next.js, and full-stack JavaScript**, with measurable impact in performance optimization and API integration. Currently instructing mobile application development at **NAVTTC**, mentoring 25+ students toward industry-ready outcomes.

EXPERIENCE

- **NAVTTC** Feb 2026 – May 2026
Mobile Application Development — Instructor
 - Delivering structured, hands-on training in mobile application development, covering core programming concepts, UI/UX design principles, and end-to-end real-world app projects.
 - Mentoring a batch of **25+ students** in building production-ready mobile applications from scratch, improving overall cohort completion and employability outcomes.
- **XCS Holdings Pte. Ltd. — Singapore** Jun 2023 – Feb 2025
Software Engineer (Remote)
 - Developed **SEO-optimized** web applications including e-commerce platforms and NFT marketplaces using **React** and **Next.js**; converted Figma and Adobe XD designs into responsive interfaces deployed via Vercel.
 - Integrated **Google Maps** and third-party APIs with request optimization and caching strategies, reducing API calls by **~35%** and improving response time by **~25%**.
 - Collaborated with cross-functional teams of designers and backend engineers in an **agile environment**, delivering scalable SPAs using component-driven architecture.
- **Freelance Software Consultant — International Clients** Jul 2022 – Present
Frontend Engineer
 - Independently delivered **20+ web application projects** for international clients by transforming Figma wireframes into fully functional, responsive web apps using **React.js** and **Next.js**.
 - Maintained **5-star ratings** across client engagements, demonstrating consistent quality delivery and deadline management.

EDUCATION

- **University of Engineering and Technology, Lahore** Oct 2019 – May 2023
B.Sc. Computer Engineering
 - CGPA: 3.3 / 4.00
- **Ideal Group of Colleges, Sheikhpura** Sep 2017 – May 2019
Intermediate in Computer Science

CERTIFICATIONS

- **NodeJS — The Complete Guide** 2026
Udemy | MVC, REST APIs, GraphQL, Deno
 - 40+ hour certification covering server-side JavaScript, RESTful API design, GraphQL, MVC architecture, authentication, and deployment.
- **Three.js Journey** 2023
Bruno Simon | 3D Web Development & WebGL

PROJECTS

- **FYP: Dead and Sick Chickens Detection using Artificial Intelligence**
React, Node.js, Express, Firebase, JavaScript, Tailwind CSS, Embedded Systems, Python
 - Led a cross-disciplinary team in designing embedded IoT hardware and a full-stack monitoring dashboard, using a foot-ring sensor to detect and alert on dead or sick chickens in real time.
 - Achieved a **68% reduction in mortality rate** and **90% increase in farm productivity** (measured across a 3-month controlled trial), demonstrating data-driven impact through technology.
- **Obsession: E-Commerce Web Application for Cosmetics**
React, Node.js, Express, MongoDB, JavaScript, Tailwind CSS
 - Built a fully responsive online shopping platform with product catalogs, cart management, and checkout workflows using a **MERN stack** architecture.
 - Implemented an automated order notification system delivering real-time purchase confirmations to admins, reducing manual processing time and improving order management efficiency.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SASS, Responsive Design, WebGL, Three.js
- **Backend Development:** Node.js, Express.js, REST APIs, GraphQL, MVC Architecture
- **Databases:** MongoDB, MySQL, Firebase (Firestore & Realtime DB)
- **Tools & Platforms:** Git, GitHub, Figma, Adobe XD, Vercel, Netlify, Heroku
- **Programming Languages:** JavaScript, Python, Java
- **Practices:** Agile/Scrum, Component-Driven Architecture, Performance Optimization, SEO Best Practices, API Integration & Caching

LEADERSHIP & VOLUNTEERING

- **UET Tribune Society — University of Engineering & Technology, Lahore** 2020 – 2023
Assistant Director, Web Development Team
 - Led the web development vertical of UET's official student media society, overseeing digital platforms used by **thousands of students and faculty**.
 - Managed and mentored a team of junior developers, coordinating project timelines, reviewing code, and ensuring consistent delivery quality.
- **SKPians Frame Society** 2020 – 2023
Volunteer — Career Counseling & Student Mentorship
 - Provided one-on-one career counseling to **100+ students** on career pathways, skill development, and tech industry entry strategies.
